LUBRICATION for Small Farm Machinery

Lincoln P502 Pump

Small and compact pump designed for farm machinery. The pump can handle a number of lubrication points in conjunction with progressive divider valves that can distribute grease to the required areas like bushers, pins and bearings. Available in 12 and 24 VDC.

- Provides lubrication when machine is operational
- Economical operation reducing cost and downtime
- Suited for a variety of farm machines like tractors, skid steers, telehandlers and bailers

Lincoln 1886 Battery-Powered Grease Gun

High ratio, dual output grease gun that easily addresses all lubrication points with a single tool, protecting equipment from costly repair and downtime.

- Supplied in a convenient heavy duty carry case
- Designed to suit demanding applications found in the Agriculture industry
- Optimised housing shape and reservoir suitable for small equipment

Faicom Grease Pump Carry Kit

Practical, compact and portable pump kits available as a carry kit or trolley kit. The handle is directly fixed to the pump or to a stable trolley.

- The trolley system easily moves product to the application
- The double-effect pumping system ensures greater efficiency, allows regular distribution and greater flow

Oil & Fuel Pumps

		
<h3>Manual Oil Pumps</h3> <p>Ideal for applications requiring portability and economy. Manual oil pumps dispense lubricants from most bulk containers.</p> <p><i>Reference the full range in General Line Catalogue Page 35</i></p>	<h3>Hand Fuel Pumps</h3> <p>Lincoln offers a range of manually operated transfer pumps suitable for petroleum-based and non-corrosive liquids.</p> <p><i>Reference the full range in General Line Catalogue Page 53</i></p>	<h3>Pneumatic Piston Oil Pumps</h3> <p>Faicom oil pumps are designed to ensure constant oil delivery. The pump is compact but powerful due to the unique pneumatic double-cylinder motor.</p> <p><i>Reference the full range in General Line Catalogue Page 40</i></p>
